

THE LEAP FAMILY

Background

My great-grandmother May Skinner (1875 – 1963) was raised from childhood by the Leap family. The Leaps were farmers who lived north of Hurffville in Washington Township, Gloucester County, NJ.

Mrs. Leap (Mary S. Leap) lived until 1920 and was well known to her grandson, Earl Skinner (my grandfather), born 1901.

However, nothing was known of Mr. Leap, who had died in 1904. My grandfather's wife, Lillian Skinner, thought that Mr. Leap had been a well-to-do judge and that he had been from Media, Pa. That information does not appear to be accurate.

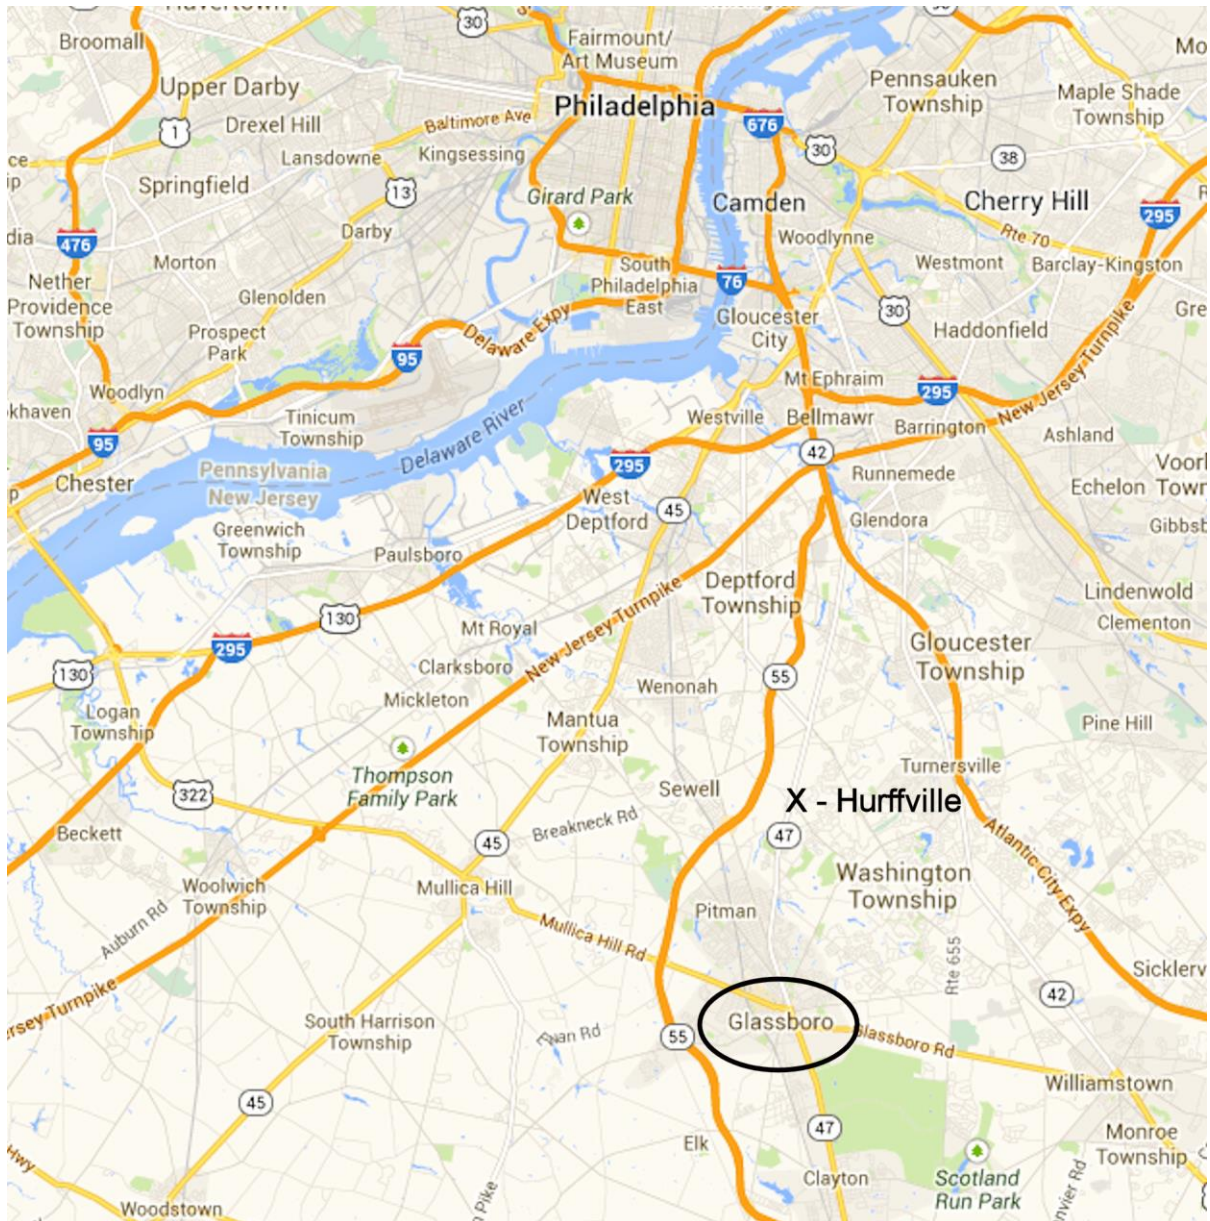

The Leaps

Mr. Leap was Joseph A. Leap, born 1829, part of the large Leap clan of Gloucester County, NJ. He was a life-long farmer.

Mrs. Leap was born Mary S. Dare. Her family was from Cumberland County, south of Gloucester County. Like her husband, she was born in 1829.

South Jersey Counties
[Geology.com]

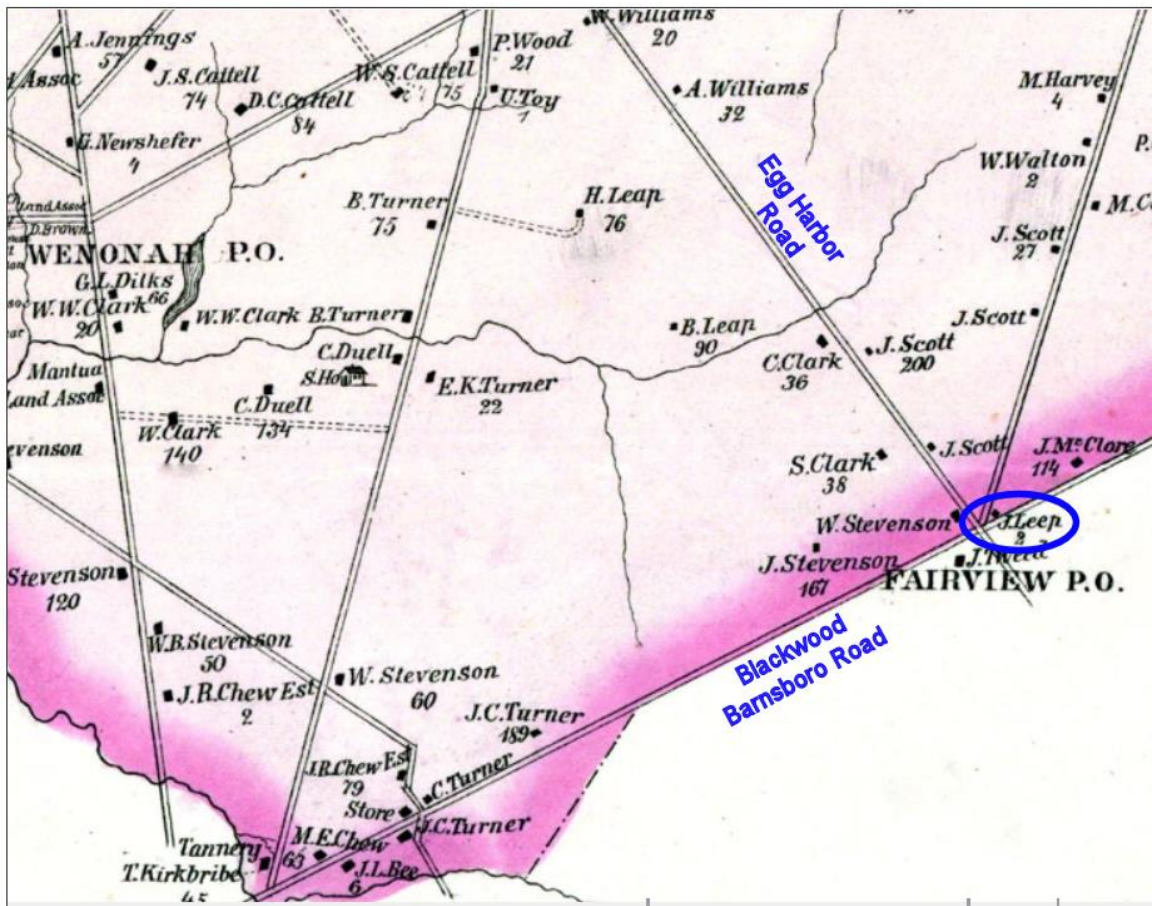

The Leap family lived on a farm just north of the small community of Hurffville.
 They were recorded at this address from 1870 thru 1895.
 May Cauley, born 1875, was raised by the Leap family and grew up in Hurffville.

Mary and Joseph Leap had lands that straddled the Blackwood Barnsboro Road (oops – misspelled it on map) - the dividing line between Deptford Township [white area] and Washington Township [green area]. They had a 2 acre home lot north of the road in Deptford, and a 95 acre farm south of the road in an area considered to be Hurffville. Members of the Wood family, with whom they were friends, lived around them.

Note that the road that comes thru Hurffville and intersects Blackwood Barnsboro near the Leap residence is today's Delsea Drive.

Many of the relatives of the Leap family, with surnames of Leap and Turner, lived nearby in Deptford Township [pink area]

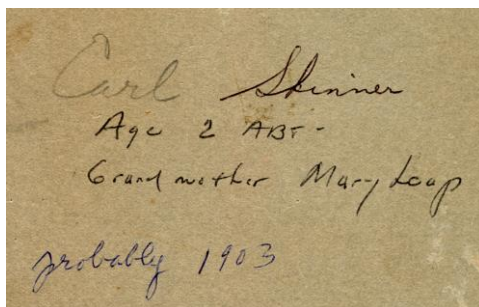

Leaps – Marriage and Children

Mary S. Dare and Joseph Leap were married 2 March 1853 in Gloucester County. They had two children. First son George was born nine months after their marriage. Second son Ellison was born three years later in 1856.

May Skinner was born Viola May Cauley in 1875. By the time of the 1880 census, May was five years of age and under the care of the Leap family. May was nearly a generation younger than the two Leap boys, who were adults by that time.

1860 Census

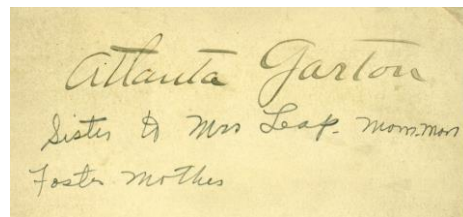

Per the 1860 census, Joseph Leap and family were renting land at Woolwich Twp., Gloucester Co., NJ (Swedesboro Post Office). Joseph was a farmer, age 30. Wife Mary was also age 30. Sons George and Ellison were ages 6 and 3.

Niece Atlanta Mills

Per the 1860 census, a ten-year old girl by the name of Atlanta Mills was living with the Leaps. Atlanta Mills was the daughter of Mary Leap's sister - Sarah (Dare) Mills (1828–1893) and Sarah's husband Jeremiah Padgett Mills. It is not clear why Atlanta was living with the Leaps – the Mills' family seemed intact at the time. As an adult, Atlanta Mills married Levi Garton and lived in Cumberland County, NJ. Atlanta and Levi had a daughter, Ida Garton, who married John Shull. Ida and John Shull were about the same age as May (Cauley) Skinner and were good friends with the Skinners in the early years of the 1900's (see Shull photos in 'GWS' file).

1870 Census

Per the 1870 census, Mary and Joseph Leap were living on land they owned in Washington Township, Camden Co., NJ (Williamstown Post Office). Joseph was a farmer and age 40. Mary was also age 40. Sons George and Ellison, laborers, were ages 16 and 14. Business directories indicate that the Leap farm was in the Hurffville section of Washington Township.

The census indicates that Washington Twp. was located in Camden County while today the township is part of Gloucester County. The census is correct - Washington Twp was temporarily part of Camden Co. from 1844 to 1871.

1880 Census

The 1880 census again shows the Leaps owning a farm in Washington Township, NJ. Sons George and Ellison were on their own and no longer living with their parents.

The census shows that the Leaps now had a young female housekeeper to help them. And, surprisingly, the Leaps were now raising a young child – my great-grandmother May Skinner. May was 45 years younger than the Leaps.

Viola May Skinner

May Skinner (born 1875) does not appear in the records until she was recorded with the Leaps in the 1880 census. Almost nothing is known of May's birth parents.

Per her daughter-in-law Lillian Skinner – May's birth mother was a single widow working for the Leaps as a housekeeper. The birth mother wanted to give up her youngest child in order to move on with her life and remarry. Mrs. Leap, who had grown fond of May, agreed to raise her. According to Lillian, the birth mother retained custody of one or two other unknown children – sisters to May, who were older and not requiring as much care.

May knew her birth mother into adulthood, despite being raised by the Leaps. May was a conservative, religious person - quite different from her birth mother. In a story often retold to me by May's daughter-in-law Lillian Skinner - one Sunday afternoon, May and her husband traveled from PA to South Jersey to visit her birth mother. Seeing the lax conditions at the boarding house that the mother was running out of her home, May left never to return.

When I was growing up, no one ever mentioned anything about the birth family of May Skinner, or any surviving siblings of May. I never asked, but no one seems to even have known her maiden surname at birth. May's son, Earl Skinner (my grandfather), made no mention to me of his mother's surname, despite his numerous notes and stories relating to family history.

While Earl loved to tell stories about his father's side of the family, it was his wife, Lillian, who liked to talk about Earl's mother – May. Lillian told me in the 1990's that she had known May's birth surname and thought it was 'Chew'. She got the first letter correct.

1880 Census and Identity of Viola May Skinner

The birth name of May Skinner (born 1875) is revealed by the 1880 census of the Leap household:

1880 Census; Washington Twp., Gloucester Co., NJ

Name / Race / Sex / Age / Relation to Head of Household / Occupation / Birth Place /
Father's Birthplace / Mother's Birthplace

Joseph A. LEAP / w / male / 50 / head of household / Farmer/ NJ / NJ / NJ

Yolah M. CAULEY / w / female / 6 / help / At Home /NJ / NJ / NJ

Mary NORTH / w / female / 17 / help / Hired Help /NJ / NJ / NJ

Yolah M. Cauley is a 6-year-old girl living with Mary and Joseph Leap. 'Yolah' is a misspelling or variation of the name 'Viola'. My great-grandmother, whose married name was Viola May Skinner, was born Viola (or Yolah) May Cauley.

The census shows that May is age 6. According to family information from May's daughter (Gladys Hughlett), May was born in May of 1875, and would have just turned age 5 at the time of this June, 1880 census. This discrepancy is not surprising – the ages in census records are often off by a year or two [or more!].

As the story goes, May's birth mother came into contact with the Leap family, serving as a live-in housekeeper to the Leaps. At the time, nearly one-fifth of the US population had housekeepers, to assist in the manual labor necessary to run farming households.

By the time of the 1880 census shown above, the birth mother of May had moved on and was no longer living with the Leaps. However, the census shows that the Leaps now had another housekeeper - Mary North, age 17. Mary was from the city of Camden, NJ.

Note that Mary North could not be the mother of young Viola Cauly. Housekeeper Mary North was not old enough to be May's mother and the census would have indicated any mother/daughter relationship between the two.

The 1880 census does not show any children other than Viola Cauley living with the Leaps. That is because the other Leap children – George and Ellison Leap, were a generation older than adopted daughter Viola Cauley and living on their own.

1885 NJ State Census

The Leaps were recorded at Deptford, NJ. Deptford was the location of their home. Their farm was a short walk away, but officially in neighboring Hurffville. Viola May appears in the 1885 NJ State Census with the Leaps as Viola May Cawley. Her last name is spelled Cawley, with a 'w'. The previous 1880 census had spelled her name Cauley, with a 'u'.

1886

Howe's Business Directory of farmers in Gloucester County for the time period 1886/1887 identifies Joseph A. Leap and Ellison T. Leap (son of Joseph) as being farmers in Hurffville (Washington Township).

1890

Howe's Business Directory of farmers in Gloucester County for the time period 1890/1891 identifies Joseph A. Leap as being a farmer in Hurffville (Washington Township).

1892 Church Records

By 1892, when May was 17 years of age, she had already left the Leap family and was living on her own. Church records of the Glassboro Methodist Church show that May Skinner was accepted as a full-fledged member of the church, following a probationary period and was boarding with a Glassboro family.

1895 NJ State Census

The 1895 census shows Mary and Joseph Leap still residing in Deptford, Camden County.

Viola May appears in the 1895 NJ State Census as May Cawley. She would have been age 20 at the time. She is now going by her middle name of 'May' as she would do for the remainder of her life. She is still boarding with a family in Glassboro, as previously recorded by church records in 1892.

1900 Federal Census

Mary and Joseph Leap are missing from the 1900 census. Both would have turned age 71 in 1900. May is also missing from the census.

Late 1890's into the 1900's

May Skinner appears in the church records of the Glassboro Methodist Church as May Crawley, later as May Cauley, and later, as a married May Skinner.

1904 – Death of Joseph Leap

Mary and Joseph Leap were residing with one of their two sons, Ellison Leap, when Joseph Leap died April 2, 1904.

Their son Ellison had a home and poultry farm in the 200 block of High Street in Glassboro, the same town where his much younger step-sister May Skinner was living.

Ellison's farm was just east of today's Delsea Drive (Delsea Drive was called Stone Road at the time). Per [The Farm Journal of Gloucester County, NJ, 1913], Ellison Leap had a 38 acre lot.

1909 Birth Record

May Skinner is identified as being Viola M. Cauley Skinner in the record of the birth of her daughter Gladys in 1909.

So May Skinner appears in the records in her youth as May Cawley, May Crawley and May Cauley. I would put my money on the 1909 birth record of her daughter as being the record that she personally would have filled out – so Cauley it is. So far, I have not been able to identify her birth family under any surname.

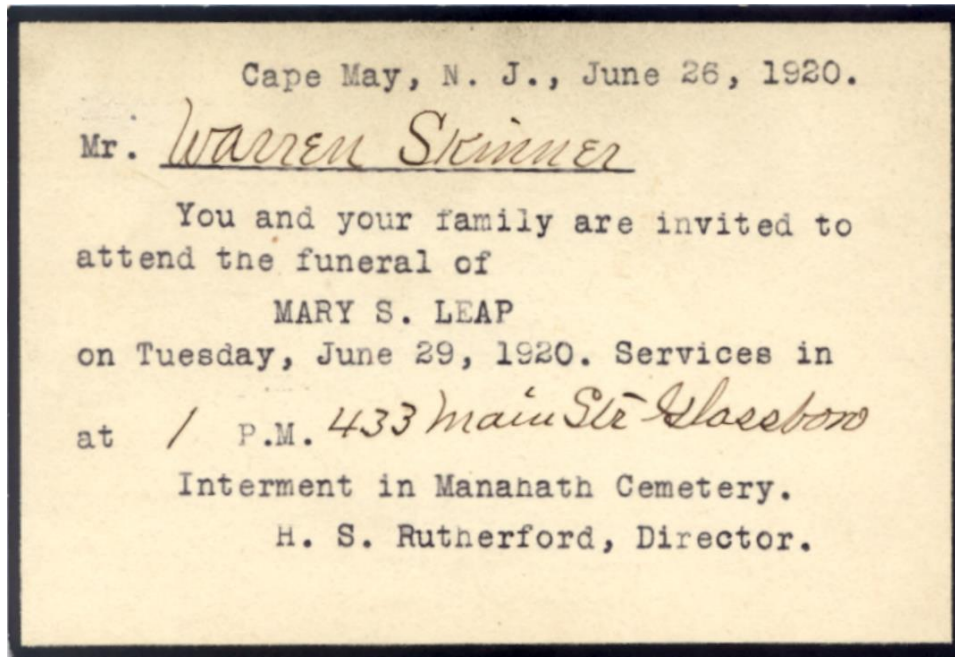

1910 Census

Mother Mary S. Leap appears in the 1910 census with her son Ellison at his farm on High Street in Glassboro. Mary was described as age 80 and a widower. Son Ellison was age 53 and had been married for 30 years. He was in the poultry business. Family correspondence indicates that Ellison maintained a team of horses there as late as 1915.

Per the next census of 1920, Ellison, at age 65 or so, had retired from the poultry business and had moved on to a home at the Jersey shore town of Cape May.

Death of Mary Leap

Mary died in 1920 at the age of ninety, just prior to the census of 1920. She is buried beside her husband Joseph in Glassboro's Manahath Cemetery.

Mary S. Leap, deceased, was foster mother to May Skinner.

Invitation is addressed to Warren Skinner, husband of May Skinner.

433 Main Street was the funeral home and residence of Louis and Rennie Shreve;

Rennie Shreve was an aunt to Warren Skinner, Rennie being a sister of Warren's father.

This letter was mailed by Mary's son Ellison T. Leap from his home at Cape May.

Correct spelling of Wenonah Ave. is Winona Ave.

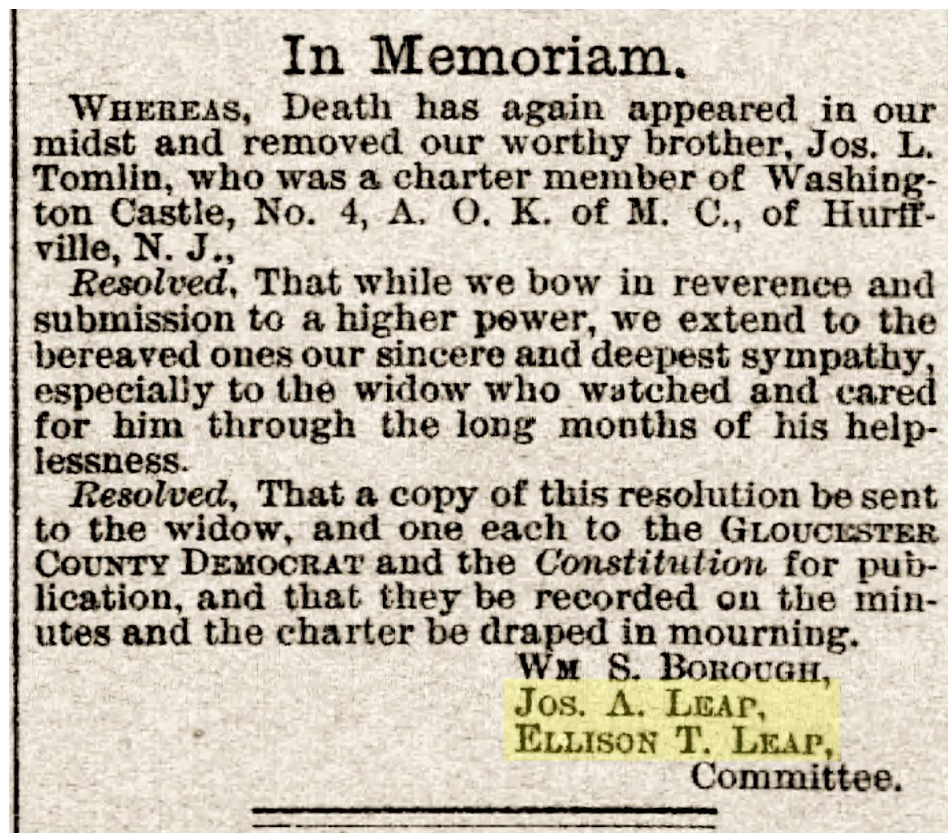

The Leap Children – George and Ellison

Ellison and George were the sons of Mary and Joseph Leap, and foster brothers to my great-grandmother May Skinner.

I have little information on George Leap. No one in the family ever made mention of a person by that name and, though he married, he disappeared from census records at an early age.

His brother, Ellison Leap, was known to the family. My grandfather, Earl Skinner (b. 1901), sometimes recalled his Uncle Ellison whom Earl had known in his youth.

Ellison cared for his parents, Mary and Joseph Leap (Earl's grandparents), in their final years. Ellison died in 1923, just three years after the death of his mother.

Children of Ellison Leap (Grandchildren of Mary and Joseph Leap)

Ellison Turner Leap was named after the Turner family, who had many intermarriages with the Leap family. Ellison and his wife Abigail 'Abbie' Leap had three children – Emma, Frank and Mary.

Emma Leap never married and per my grandfather, Earl Skinner, “was a wild character; smoked cigars”. One surprising piece of information is that Emma lived until 1961. My grandfather, Earl, had probably not seen her since his youth in the early 1900's. And the rest of us knew nothing of her.

The second child of Ellison and Abigail was Frank Leap. Frank married Ella Shreve in 1902 and had a son Allen Leap in 1903.

Frank Leap died in 1913 at age 29. His body was found in the Big Timber Creek in Westville, NJ. My grandfather Earl Skinner (b.1901) was under the impression that Frank had died from suicide.

Frank was buried at Bethel Methodist Cemetery near Hurffville. A letter from Mary S. Leap (Frank's grandmother) indicates that Frank's mother went down to Bethel, NJ in October, 1913 to look at tombstones for Frank and that the week had been "unpleasant".

The third child of Ellison and Abigail was Mary Leap, not to be confused with her grandmother Mary S. Leap. Mary married twice. Her second husband was part of the large Wood family of South Jersey. Many members of the Wood family had lived in Washington Township during the 1800's and had been neighbors to Mary Leap's paternal grandparents – Mary S Leap and husband Joseph.

FRANK LEAP.

The body of an unknown man that was found in Big Timber creek Monday afternoon was last night positively identified by State Detective Frank Miller and his assistant, A. L. Class, as that of Frank Leape, of Glassboro, N. J., who disappeared on Friday, March 21, 1913. Miller and Class had been retained by Mr. Leap's father to ascertain his whereabouts his friends being doubtful as to his safety and feared foul play.

Frank Leap, it is claimed, was a man of good habits and was one who always respected his parents and always informed his mother of any intentions he may of had for staying away from his home, if only for a night.

The detectives conducted a diligent search for the man, who was found in Big Timber creek. They traced him from Glassboro, to Philadelphia as far as Market street ferry, where all search proved futile. By the investigation conducted by Miller he says there are conditions surrounding this case which friends of the drowned man believe to be foul play. Miller refuses to give his opinion at this time, but he can't understand why Leap crossed a broad stretch of water on two different occasions and went to Timber creek to commit suicide.

Through an insurance receipt found in the clothing the body of the man fished out of Timber Creek was partially identified to-day as that of Frank Leap, of Glassboro, who has been missing from his home since Good Friday. The body is in such a state that the features cannot be distinguished, but the clothing tallies with that of the missing man, and there is no doubt but that it is that of Leap.

Leap was a chicken buyer for Thomas Allen, and after he vanished it was thought that he had lost his life in the Wharton fire at Glassboro, as he had been at the place just before the flames broke out. Later it was learned that Leap on the following Sunday night had hired a boatman at Pennsville to take him to Newcastle, Del. Relatives from Glassboro are expected here this afternoon to complete the identification.

The body was found on the Camden county side near the wagon bridge at Westville, by Charles Reader and Edward Sharp. He had on a dark suit, kid gloves and russet shoes. The hair is light. Coroner Saunders sent the corpse to the morgue.

Coroner Saunders this morning made a minute examination of the body. He failed to find any evidence of violence, and in his opinion death was due to drowning.

Leap disappeared on Good Friday, and the conditions of the body indicates that it has been in the water two weeks.

Frank Miller, a private detective in the employe of the Leap family, said to-day that he is sure the dead man was a victim of foul play. The body was shipped to Glassboro this afternoon.

Cauley / Cawley Heritage

Viola May Skinner appears in the 1880 federal census as Yolah M. Cauley and as May Cawley in the 1895 state census. She also appears in records of the Glassboro Methodist Church as Viola M. Cawley about 1897. The names Cauley and Cawley would have been abbreviations of the Irish name McCauley. There were many families with these surnames in the Philadelphia area. It would be interesting to locate the applicable family, as May Skinner was said to have had one or more older sisters.

May Skinner may descend from a Cawley clan who lived during the 1800's in an area that included Woolwich Township (town of Swedesboro), Gloucester Co. and Upper Penns Neck, Salem Co. to the south.

This family includes the descendants of Abraham (born circa 1809) and Susanna Cawley (born circa 1811) of Woolwich Township. They had two sons John and William, born in the 1830's, either of whom could have been grandparents to May Skinner (b. 1875). May's foster parents could have come into contact with the Cawleys since they also lived in Woolwich Twp. for a time (per the 1860 census).

A second possibility is that May Skinner descends from the family of Joseph Cawley (born circa 1813), who lived south of Woolwich Twp. at Harrisonville, Gloucester Co. and later, Upper Penns Neck, Salem Co. This family includes a granddaughter of Joseph named Lizzie Cawley, six years older than May Skinner and possible sister to May. The family had some problems as Lizzie ended up living with her grandparents in Upper Penns Neck by the time of the 1880 census. This family saw a marriage of a Joseph Cawley and Hannah Albright in 1867 at Harrisonville. [www.state.nj.us/state].

Map Key

Mary and Joseph Leap lived at **Woolwich Twp.** per the 1860 census.

The Leaps lived at Hurffville, **Washington Twp.** per the 1870 and 1880 census. They raised Viola May Cawley (b. 1875) from childhood. She first appears with the Leaps in the 1880 census.

By the 1900's, the aging Leaps were living with their son Ellison in **Glassboro**. May Cawley was also living in **Glassboro**, but on her own, per the 1895 State Census. May was working at a **Philadelphia** 'Notions' store while dating her future husband, Warren Skinner, in the late 1890's. Not sure where she was living as she is missing from the 1900 census. Warren Skinner was living with his parents in **Glassboro** where he was born and raised, per the 1895 and 1900 census.

May Cawley may descend from several Cawley families who lived in a region that included **Woolwich Twp.**, the town of **Harrisonville**, Gloucester County and **Upper Penns Neck**, Salem County.

Letters From Mary S. Leap To Her Daughter May Skinner:

There are many surviving letters written from Mary S. Leap to her adopted daughter May Skinner.

Mary Leap did not use capital letters to mark the beginning of sentences nor periods to end sentences. She rarely used paragraph breaks. She routinely misspelled common words, such as would and could (wold and cold). Her letters in the 1913 time frame show that she had good vision. Her letters in the 1917 time frame showed very poor eyesight. She died 1920.

Mary's letters indicate she was living with her son Ellison and his wife Abbie, which is confirmed by census records. Many of the people mentioned in Mary's letters can be found in the Leap Family Tree presented on page four (4).

You wanted to know how much the feathers would be. I asked Abbie. She said 2 cents/lb. I do not know how many lbs for a bed. Have you gotten your ticks. If i had any way to help you. Had better wait until you come over. If Warren is home you cold come over some day. Abbie is cleaning the kitchen today. She is dun upstairs. The club met here last night. Did not get to bed. Fran[?] was here. She is sewing at Tallows [?]. I went to Wenonah Satterday and came home Monday morning with her. Made my visit at _____. They are as well as usual. Mary Cattell had a nice baby. Mrs. Jones is the happy Mother of a daughter born Satterday. Both doing well. I expect I am forgetting something. Yes. Ella Dunham sent me three bottels of very nice grape juice. Dear May

Your letter received. I should have written before this. Had bin looking for you as you said you would come over when I got home. Abbie has bin to the city today. She went up Monday, got her hat, and did not like it. Went up to have it fixed. **Frank Height tuck her Tuesday afternoon to Bethel to see the grave stones for Frank Leaps grave. I should have gawn if it had bin pleasant for the Auto ride. It has been a very unpleasant week.** Abbie is dun cleaning. Was dun upstairs when i got home. She stopped off at Pitman to Marys. Her and her baby are well. He is growing. When you write tell Warren to tell me if the celery that he passes when he goes to work is dying. Ell's has the blight, is no good. All the celery in this vicinity is the same and the wet weather has ruined his late potatoes. The vines are dead and no potatoes on them. Mrs. Richard had the rumatism so bad she could not clean my room for me so I thought I would make out with what I could do. It isent very dirty. Nine weeks it wasn't used. I had a letter from Josephine [Turner]. Mrs. Scott had her sale and has gone to live with Em Turner. Ha could she have gotten to live with her. So nice as Mrs S since Mrs. Turner's death. There was a man here some weeks since, I think his name was Jackson. He was speaking of Norwood to me. He said he had a sister living there, a ____ I think not far from you. He said if it wasn't for his grandson he thought he would like to live thar.

Good night.

Lovingly,

Mary S. Leap
